The programme participant is obliged to clarify accident and liability insurance at the workplace with the internship provider (to be noted in Table C of the Learning Agreement).

The accident and liability insurances specified here must **at least cover damage and accidents at the workplace** (reference to the Learning Agreement, if applicable). **Additional insurances for the private sphere are strongly recommended.** When taking out private health insurance abroad, make sure that it also covers cases of panic and travel to countries with (tourist) travel warnings. Inform yourself in advance with your insurer about the validity of internships abroad and take out any necessary insurances.

The University of Passau, the DAAD, the National Agency as well as any other institution involved in the implementation of the Erasmus+ programme shall not be liable for the consequences of non-insurance or underinsurance.

I declare that I have been informed about the necessity of sufficient insurance cover and that I have sufficient insurance cover during the internship abroad.
