# What do I have to do?

## Collecting food donations with cargo tricycle in front of supermarkets

Tasks in detail:

- Generate a **list of supermarkets** in the city
- Obtain permission to collect donations in front of the supermarket
- **Campaigns in front of supermarkets** with our **large cargo tricycle as an eye-catcher** especially on Friday afternoons and Saturdays - to encourage people to buy one more thing and hand it in for the food bank on their way out.

# What is the project about?

**The Passauer Tafel** (food bank) supports around 240 households with food provided by supermarkets. The aim is to **save this food before it spoils** and at the same time **to relieve the burden** on people who have to live on unemployment assistance, basic income support, small pensions or a small amount of student loans. Unfortunately, the rescued food is less and less sufficient, so we would like to be able to provide additional food for the food bank. We are therefore looking for people to collect food from supermarkets.

The Passauer Tafel is operated by Caritas, Germany's largest charitable organization. The organization is responsible for the social work of the Catholic Church.
