What is the project about?

Arriving and studying & living in Passau is often a particular challenge for international students. Especially at the beginning, but also during their studies, there are uncertainties regarding many topics: Tips and experience reports from like-minded people are helpful and encouraging!

We would like to interview international students at the University of Passau and find out from them how they have found their way through the jungle of new experiences, hurdles and intercultural challenges.

Objective: Identify intercultural challenges/critical incidents/cultural shocks etc. and resolve them positively (tips, positive experiences, funny stories)

Target group: international prospective students + international students

What do I have to do?

This would be the students' task:

- Continue the video series “Survival Kit _ How to survive Passau” of the Instagram account [unipassau.international](https://www.instagram.com/unipassau.international)
- 2-3 rounds of talks with internationals (freshmen + seniors from various degree programs) in a pleasant atmosphere as a preliminary talk + subsequent interviews/video production
- Edit videos. Editing, subtitles, captions.

Recognition process for GeKu or SoBi degree programs

- If you would like to have your service learning recognized as part of your degree program, e.g. as a practical project, please contact the program coordinator for you at GeKuF or SoBiF in advance to discuss the recognition options and implementation.
- Please also discuss the modalities with the course instructor in advance.
- The duration of the service learning must be confirmed by the course management and the AYCD program (AYCD Pass).
- In any case, a report of the same length as a regular internship report must be submitted in which you reflect on your findings and experiences according to current academic standards.
- **Important note: AYCD only acts as a facilitating body and does not award ECTS credits, only a volunteer certificate. The AYCD Kick-Off and the final event can be included in the number of hours completed.**

When do we start?
