# What is the project about?

**WeArePassau** is an **Instagram account** that aims to portray locals and immigrants from Passau and thus contribute to greater mutual understanding.

During the interviews, the aim is to find out about people's **specialities, interests, intercultural pitfalls, talents, emotional states and everyday stories**. But also wishes, visions for the future, suggestions for a better coexistence should be asked. The aim is to look at people in Passau and their individual personalities and cultural characteristics from a positive perspective.

# What do I have to do?

**We are looking for a team of social media enthusiasts who are good with Instagram and can take on the following tasks:**

- Create a question concept modelled on the previous posts on the account
- Find interesting interview partners (either planned or through spontaneous street interviews)
- Conduct interviews with a mobile phone (+ microphone if necessary) at suitable locations (e.g. favourite places, places of work, etc.)
- Produce at least 3 reels with video editing, subtitles, voice-over
- Post reels

New ideas and concepts for the account are very welcome!
